

Senior IT Engineer - Technical Lead

Location: Coventry, West Midlands, CV1 4JU

Salary: £35,000 - £42,000 Depending on Experience + overtime and benefits

Contract: Full time, permanent

About us:

Syscomm are a Managed IT Services Provider delivering Server, Network, Cloud and Voice solutions from our own UK Data Centres, with Client Services delivered by the Support Team in Coventry.

We are looking for a Senior IT Engineer with strong Microsoft, VMware and Cisco skills and experience of technical leadership within an MSP.

The role:

Syscomm offer our Customers expert Network, Server and Security support for their IT Systems. The Senior IT Engineer's responsibilities include:

- Hands-on point of 3rd line escalation for Helpdesk.
- Incident Management
- Specification of Customer solutions and day-to-day chargeable works, developing the Customer requirements.
- Driving Helpdesk Performance and Process efficiency.
- Overseeing first-contact-resolution and reducing case repetition.
- Maintain IT Service availability, SLA conformance and KPI reporting.
- Develop and track team progression with training and performance targets.
- Conduct performance evaluations, motivating and developing team members.
- Provide Expert Technical Support for Projects and the Helpdesk.
- Develop Solution Diagrams and Documentation.
- Assist with Pre-Sales Consultancy and with new Client on-boarding.
- Maintain and Develop efficient processes in accordance with ITIL.
- Onsite visits to Customer sites for Service Reviews.
- Contribute to Syscomm's company strategy.

To maintain IT Service in our non-stop world, the role will involve occasional out of hours working as a part of a team rota.

About you:

You will have experience working as 3rd Line Support providing advanced support in a MSP environment.

You can demonstrate excellent leadership, analytical and organisational skills, with appropriate technical qualifications and can combine your skills to offer the Gold Standard for IT Service Delivery in line with ITIL Standards.

You are an expert across Network, Server, Security and Voice technologies, with experience implementing technology, monitoring and KPI's to drive business objectives.

Skills required:

- 3rd line understanding of Microsoft Server and Applications

- 3rd line understanding of Cisco, Extreme and Fortinet Network Technology
- 3rd line understanding of VMware, Azure, Veeam and WAN Technologies
- Understanding of Avaya or Mitel VoIP and Contact Centre is desirable
- Full UK driving license and your own car

What you will get in return:

As a growing company, Syscomm offers an exciting role with opportunities to support a wide range of organisations. We have an open-doors culture where employees are encouraged to grow and develop within the company. We host regular social occasions, home broadband is offered free of charge, with other benefits including a company pension and onsite parking.

You must be eligible to work in the UK.

Strictly NO agencies please.

Keywords: IT Manager, 3rd Line Support, Service Delivery Manager, Client Services Manager, Helpdesk Team Leader, Service Desk Manager, Customer Relationship Manager, Client Services Director, Operations Director, IT Director, DevOps Manager, Infrastructure Manager, Chief Technical Officer, Chief Information Officer, IT Project Manager, ITIL
